

Industry Brief: Banking

As technology changes, banks are struggling to keep up and it is getting harder and harder for them to maintain the systems they have in place. In this competitive industry, banks have no choice but to make the digital transformation in order to keep up with consumer demands. With *ECMNOW!* your organization can reduce costs and increase customer satisfaction from a single interface that provides multiple layers of security and enables compliance with federal regulations.

EFFICIENCY*NOW!*

- Improve customer service with instant access to account information and effortlessly cross-reference between line-of-business (LOB) applications to unify multiple systems.
- Eliminate manual data entry tasks by utilizing the patented artificial intelligence (AI) engine to classify and extract critical data from documents automatically.
- Apply Robotic Process Automation (RPA) to routine business tasks to speed up document processing times.

CONTROL*NOW!*

- Securely manage data to ensure compliance with federal regulation requirements such as Gramm-Leach-Bliley Act (GLBA) and Sarbanes-Oxley Act (SOX).
- Ensure your customer's private information is securely protected 100% of the time with document encryption during transmission and at rest.
- Move sensitive business data from vulnerable paper files into a password-protected electronic format.

MONEY*NOW!*

- Eliminate the expense of document storage fees by minimizing paper use.
- Reduce operational expenses by eliminating hardware and IT costs by managing records in the cloud.
- Streamline organizational decision-making for faster results.

"30% of all retail banking jobs can be automated by 2025 and automation will reduce the cost of work by 40-80%."

- Accenture, 2017

What Problems Can *ECMNOW!* Solve?

What if there was one solution that could integrate multiple platforms? With *ECMNOW!* you can digitize, manage, store, and route all your financial data. Boost the success of your organization by minimizing downtime, while maintaining strict security standards and saving money.

Enjoy Easy Setup

Need a system that is easy to setup and manage? Our cloud-based service allows you to minimize IT burden by outsourcing hardware, software, and maintenance costs. ImageSilo® offers sophisticated organization to improve efficiencies while maintaining complex security requirements, and best of all lowers the overall cost of managing information.

Eliminate Manual Tasks

Are you still hand-keying document information? Eliminate time-wasting manual data entry and improve the accuracy of your data utilizing our patented AI technology, PaperVision® Forms Magic, to classify and extract critical information from financial documents and streamline business processes across your entire organization.

Integrate Seamlessly

Do you work with multiple systems? *ECMNOW!* comes with easy to use point-and-click integrations that make it quick to share information with other line-of-business applications, simplifying your document management and improving efficiency of the whole organization.

Intelligently Locate Information

Are you struggling to locate customer data in a timely matter? Improve your customer experience to exceed their expectations with *ECMNOW!*'s powerful search functions that allow you to locate virtually any information within seconds, saving countless wasted hours. Streamline your process to speed up requests and while improving customer service.

Comply with Regulations

Are your files protected in accordance with federal regulations? Under GLBA, SOX, and other regulations, organizations must securely protect customer data from unauthorized access. With *ECMNOW!* you can ensure that your customer's private information is protected with document encryption both at rest and in transmission.

Grow as Needed

Do you need a system that automatically grows as you do? PaperVision® Enterprise and PaperVision® Capture are designed to run on a single desktop or across a globally distributed network. Data can be received anywhere, anytime, from any location. Automation services make it easy to scale the system to your needs without adding additional costs.

"I don't know that we could do the business we do without ImageSilo. The physical aspect of trying to deliver what our partners need on paper would be impossible. Even the money savings of running a business without paper is incredible. By not printing 1.29 million pages a year, at five cents per page, we are saving over \$64,000 in printing costs alone."
