

What if You Could Capture Anything?

Capture and organize all your documents

You can't effectively secure or access information trapped in paper documents or scattered across workstations and networks.

85% see failure to digitize, standardize, and automate business processes as a key problem.

- AIIM, 2019

Paper consumption grows by 22% each year for an average business.

- Environmental Paper Network, 2019

Companies in the US spend over \$120 billion annually on printed documents.

- Environmental Paper Network, 2019

Automate information capture.

Capture Any Document. or file

Route document data Anywhere.

Organize your information Anytime.

"Using PaperVision Capture, we get our mail into the system quickly and efficiently. We don't have to store it at offsite locations... we've reduced file storage costs by 70%! "

- Chad Anderson
Manager of IT and Administration
Western Guaranty Fund Service

"Using PaperVision Capture I can put documents into the scanner, push a button and walk away. I can do other tasks while the documents are processed allowing me to get back to the job I really need to do. "

- Stefanie Evans
Staff Accountant
GPC Contracting

" PaperVision Capture turns data into actionable information by extracting data from both electronic and paper documents. Despite it's power and flexibility, the product is easy-to-use. "

- Jamie Bsaes
Director of Solutions Analysis
Buyers Laboratory
